RESUME

Rajesh Raval WordPress Developer

WordPress and WooCommerce developer with 7+ years of experience. I don't just build websites, I build websites that earn: online stores, booking systems, payment gateways, REST API and AI integrations, and custom plugins. I work full-time as a developer and partner with freelance clients worldwide. Open to long-term client relationships.

PAGE BUILDERS

Gutenberg · Elementor Pro · Divi · WPBakery · Fusion Builder

ALSO

Site security · Malware cleanup · Updates & maintenance · Site Kit & Analytics · Search Console

EXPERIENCE

Freelance WordPress Developer

Upwork and direct clients · Worldwide

- Build and customize WordPress and WooCommerce sites for business owners, working directly with each client.
- Developed a custom WooCommerce shipping plugin from scratch for a client, connected to their shipping provider's API, and took it through review and publishing on WordPress.org.
- Provide ongoing care: core, theme and plugin updates, security checks, spam and malware cleanup, and troubleshooting of checkout and display issues.

WordPress Developer

Full-time · 7+ years of professional experience

- Deliver WordPress and WooCommerce projects for international clients (see Projects below).
- Build advanced WooCommerce customizations: live price calculations from customer inputs, custom checkout flows and automatic invoices.
- Build booking and membership platforms, including real-time chat, voice and video calling with a credit-based payment system.
- Create pixel-perfect, responsive sites in Gutenberg, Elementor, Divi, WPBakery and Fusion Builder that client teams can edit themselves.

PROJECTS
